  - b. Our final registration numbers for travel soccer this year- 200 players. This is up from 154 players last year! About a 30% increase in participation!
  - c. Turkey Tournament was a big success. We had great weather for the girls' day (on Saturday). On the boys' day (Sunday), we did experience some rain and did have to cancel the last 2 hours. But, every team played 2 games and about 1/3 of the brackets were able to finish to completion. I heard no complaints. Every response I received in person or via email after was about how much their teams, players and families enjoyed their experience. We had 94 teams participate. Last year, we had 74 teams and in 2019 we had 57 teams (2020 tournament was cancelled because of COVID). With the

increased team registrations, we saw increases in food and apparel revenues. We brought in approximately \$43k in gross revenue. Tournament expenses were approximately \$21k, so in all we had net revenues around \$22k. These funds will be used for capital expenses (new goals, nets, re-seeding of fields) and they cover annual operational expenses as a supplement to our player registration fees to help keep costs down for our families and community. The tournament allows us to charge registration fees that are 1/3 to 1/2 the cost of other area clubs' fees.

- d. Scott is re-working annual registration fees to incorporate more of our steady charges that every team pays out of their budget. This includes TeamSnap, the Turkey Tournament registration and our lights for October/ November. This way, the club will have the funds for these items in their accounts and these are items teams will no longer have to include in their budgets.
  - e. We have almost completed the TeamSnap migration from individual teams to a club/ league account. This will save the travel program approximately \$200 per year from the 15 individual team accounts we have. Each additional team that is added will be another \$100 in savings annually. The cost is \$1295 per year. Teams are unlimited, so we can also include IM/ Rec teams under this account (will have the availability function in TeamSnap unlike the free/ basic team accounts that usually get used for IM). Other sports if they are interested can use this club/ league account as well.
  - f. While we will start preparing for the spring, we will also beginning planning for next year's tryouts. They usually occur at the end of March/ early April.
- vii. Softball – Jim McClelland
- a. Will be offering Intramural Pitching Clinics February 11th and 18th for 10U, 12U and 15U.
  - b. Expecting registration to pickup in February.
  - c. Natalie and Jenn are looking to take a step back and will be holding an Intramural Softball Meeting - January 25th at 6:00 at the DR Clubhouse: This meeting will be open to all who are interested in helping to plan our spring season and hopefully getting some interested people to join the board.
  - d. Let Bill know how drainage is working at field 4.
- viii. Travel Softball
- ix. Baseball

  - c. 1/18 will be hosting a travel meeting with coaches to get everyone unified in the travel program.

  - g. Will do cow flop again this year, but no date yet.
  - h. Making a big push to get more baseball families to Volunteer.

- i. Evan handed out flyers to all the local daycares/preschools.
  
- x. Connie Mack – Chris DiDinato
  - a. More adults are registered than kids, hoping to get more among the 13-16 range. May not have enough for a spring team.
  - b. Connie Mack Summer schedule will allow kids to play AAU and still play for DR, all games will be weekdays games.
  - c. Need to really get the word out to drive up registration. Big disconnect once kids age out of majors. They have not been retained the last few years and causing very low numbers for our Connie Mack program.
  
- xi. Travel Baseball
